Texture: sandy silt loam

Soil description (inclusions, other comments):

Dry, difficult to trowel, some gravel

* When levels were divided into C, D, E; Level C was Sandy loam

Associated Features and Levels:

Level above: A+B
Level below: E +

Bag number: 5

Artifacts: Keys, glass chards

Interpretation:

Initially a dark band of soil bordered the west wall of Level C. This soil color matched the color in Level D along its east wall. Level C could connect with Level D (we won't know until Level E is finished). Level C also developed a sandy colored soil along its east wall.
