**dcic** digital curation  
innovation center

# Agenda

- Introduction to DCIC
- Defining Digital Curation
- Case Studies
  - 1. Human Face of Big Data [Community Displacement]
  - 2. Mapping Inequality [Racial Zoning]
  - 3. St. Louis Voyage [Refugee Narratives]
  - 4. WWII Japanese American Camps [Citizen Internment]
- Computational Archival Science Themes
- Practical Skills for 21<sup>st</sup> Century Archivists
- Conclusion / Questions

## ARC: Archives Research & Collaboration Lab

Director: Ricky Punzalan

ARC studies and develops innovative approaches, systems, strategies, and tools to foster sustainable futures for archives, preservation, and digital curation.

<http://archivescollaboratory.umd.edu/>

## SALT: Sustainable Archives & Leveraging Technologies

Director: Richard Marciano

SALT is an interdisciplinary lab, which focuses on the long-term preservation of digital cultural and research assets at scale. SALT is an acronym for **SustainABILITY** and uses as its logo the two thousand year-old ancient Chinese pictograph for salt ("yan") which is a metaphor for the integration of policy, governance, infrastructure, and content.

<http://salt.umd.edu>

## curatelab

Hornbake South 4110

Digital lab for group learning, collaborative design, and hands-on digital curation project development (23 seats, 3 interactive screens, 12 workstations with 12TB of storage).

## digitizationlab

Hornbake South 4110D

Document scanning, image manipulation, and archival ingestion facility for group projects.

## serverfarm

UMD Computer & Space Sci. Bldg

On-campus virtual machine farm for research data processing, storage, and hosting (15TB storage, 2 Dell servers, VMWare-powered).

## cloudlab

Amazon Cloud

Dashboard-enabled virtual computing lab in the cloud for creating Windows/Ubuntu instances using Amazon Web Services (AWS).

## dataCave

UMD Cyberinfrastructure Center at the Rivertech Bldg

Building DRAS-TIC

Digital Repository At Scale That Invites Computation (To Improve Collections): a peta-scale archival storage and preservation repository (based on DRAS-TIC open-source software [NoSQL Cassandra database] and computational infrastructure (4 Dell nodes).

# dcic

## digital curation innovation center

<http://dcic.umd.edu>

### Mission

Be a leader in the digital curation research and educational fields, and foster interdisciplinary collaborations using Big Records and archival analytics with public / industry / government partnerships.

Sponsor interdisciplinary projects that explore the integration of archival research data, user-contributed data, and technology to generate new forms of analysis and historical research engagements, particularly in the arenas of social justice, human rights, and cultural heritage

COLLEGE OF  
INFORMATION  
STUDIES

## Projects

### Cyberinfrastructure for the curation & management of digital assets at scale:

#### "Brown Dog"

A CIC Big-10 \$10.5M NSF/DIBBs-funded collaboration with U. of Illinois NCSA Supercomputing Center and industry partners (NetApp and Archive Analytics Solutions). This project aims to help accelerate the development of digital curation processes and services and create a data observatory to provide access to Big Records training sets and teach students practical digital curation skills.

#### "Curate Cloud"

A \$300K IMLS-funded project that helped launch a new online professional education certificate for digital curation professionals, the Curation and Management of Digital Assets (CMDA). Curate Cloud is also developing an open-source research and educational platform, the VCL (Virtual Computing Lab), to remove barriers to access for curation tools and resources.

### Digital Curation training:

#### Digital Curation Fellowships

The iSchool has several Fellowship opportunities for students in digital curation and archives. These include a collaboration with the **National Agricultural Library (NAL)**; extensive project work with the **National Park Service (NPS)**; and a scholarship established in honor of **Bruce Ambacher**, retired senior archivist and iSchool faculty member.

#### Interdisciplinary Research Teams

Gain new digital skills, conduct interdisciplinary research, explore professional development opportunities at the intersection of archives, big data, and analytics through a number of project themes: Refugee Narratives, Community Displacement, Racial Zoning, Cyberinfrastructure for Digital Curation, Movement of People, Citizen Interment.

## People

### Research Staff:

Richard Marciano	Director & SALT Lab Director
Michael Kurtz	Associate Director
Ricardo Punzalan	Research Associate & ARC Lab Director
Ken Heger	Research Associate & DigitizationLab Director
Greg Jansen	Research Software Architect
Maria Esteva	Affiliate Professor
Victoria Lemieux	Affiliate Professor
William Underwood	Affiliate Professor

Mary Kendig / Myeong Lee Graduate Research Assistants

### Research Affiliates:

#### U. Maryland

Tammy Clegg, Nick Diakopoulos, Jesse Johnston, Trevor Owens, Jenny Preece, Katie Shilton

#### External

Bruce Ambacher, Natalie Baur, John Burns, Andrew Lau, Scott Mady

### Postdoctoral Fellows:

Morgan Daniels, Kathryn Gucer, Adam Kriesberg  
(Advisor: Punzalan)

### Students (Undergraduate, Master's [MUS, MM, HCM], Doctoral):

Maddie Allen, Saba Al-Dughaiher, Vinita Altre, Myuresh Amdekar, Richard Bool, Arpit Chandra, Shiyun Chen, John Dela Cruz, Anne Dempsey, Shaina Destine, Kelsey Diemand, Pal Doshi, Erin Durham, Will Frolikdong, Alicia Geller, Karishma Ghiya, Janet Glazier, Rajesh Gnanasekaran, Rhett Greenfield, Allison Gunn, Ashley Haddix, Scott Harkless, Tom Hausmann, Eric Hung, Hardik Jhaveri, Ruchira Kapoor, Amar Kurane, Yufeng Liao, Zhenye Ma, Sheryl Mathias, Paridhi Malthur, Martin Moreno, Jennifer Proctor, Brian Redford, Darlene Reyes, Benjamin Sagey, Sohan Shah, Jay Sheeth, Niraj Shtrame, Ediel Spencer, Akash Udani, Sydney Valle, Jennifer Wachtel, Melissa Wertheimer, Meaghan Wilson, Jiahui Wu, David Zhang, Xinyun Zhang

### Doctoral Students:

Andrew Caserlano, Will Thomas	(Advisor: Marciano)
Diane Travis	(Advisors: Butler/Marciano)
Edward Summers, Amy Wickner	(Advisor: Punzalan)

## Projects

### Justice, Human Rights, & Cultural Heritage:

#### Overseas Pension Project

A student- and professional society-driven project to collect information documenting payment of pensions to American veterans living overseas. The project creates datasets documenting migration patterns, the flow of money, health conditions, and family connections prior to World War I.

#### International Research Portal Project (IRP<sup>2</sup>)

This project will improve access to an important tool which identifies and locates looted art and other cultural assets found on the *International Research Portal for Records Related to Nazi-Era Cultural Property*.

#### Mapping the Voyage of the St. Louis

In 1939, 937 passengers (mostly Jews) fled Germany aboard the SS St. Louis ship, heading to Cuba, where they were turned away and forced to return to Europe where 254 were killed during the Holocaust. The project looks at mapping individual and collective stories through graph database techniques.

#### Japanese-American WWII Camps

Building on a UMD FIA Seed Grant, the project explores the integration of archival and user-contributed data using social networking graphs to link people, places, and events. Using WWII Camp data.

#### Mapping Inequality

A project with Johns Hopkins, Virginia Tech, and U. of Richmond where a national collection of New Deal redlining records is being crowdsourced (these unique records capture racial, ethnic, and economic conditions).

#### The Human Face of Big Data

A student-led project that will create access and collaborative opportunities around historically and socially-significant heterogeneous datasets rooted in urban renewal housing records for a number of cities.

# Digital Curation...

**“The active and ongoing management and enhancement of digital assets for current and future use.”** Digital curation entails more than secure storage and preservation of digital information because curation may add value to digital information and increase its utility.

# Digitization Process of an Old Map

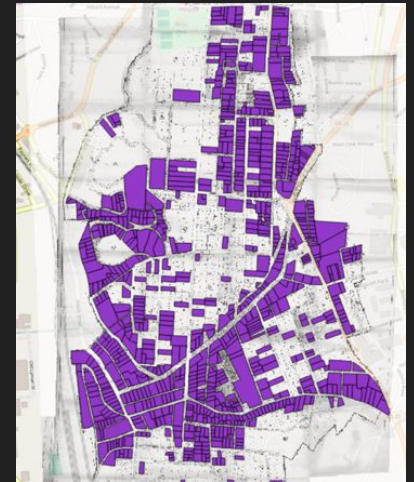

**Paper Map**

**Scanning & Adjusting**

**Georeferencing**

**Geo-tracing**

# Scanning and Adjusting

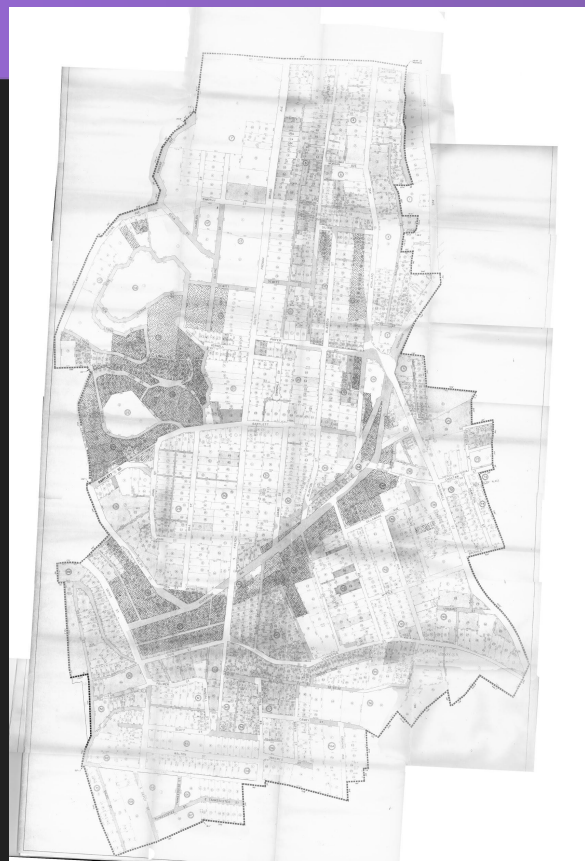

**Distortions Due to Tiled Scanning**

**Smart Object in Photoshop**

# Georeferencing

Using **ArcGIS** or **QGIS**

**Aligning** an Old Raster Map onto the Modern Online Map

Used another clean Map **as a Guideline** to Align the Scanned Map

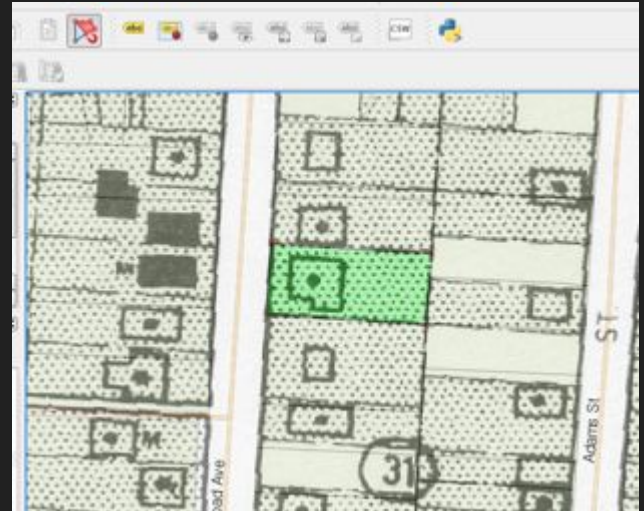

# Geo-Tracing

The process of creating **computer-detectable polygons** on top of the raster map.

Possible using **QGIS**, **ArcGIS**, or **Leaflet.draw**.

Stored in a **Shapefile**.

Shapefile can be exported to **GeoJSON**.

# Historical Context

- Home Owners Loan Corporation 1930's - 1940's
  - Rated neighborhoods by racial makeup
  - Areas without loans fell apart
- 1950's Urban Renewal targeted areas for clearance
- Result: Mass displacement
- RG195: Federal Home Loan Bank Board, HOLC, 1933 - 1951
- Contains Maps, Neighborhood Surveys, Loan Information

# Mapping Inequality

## Documents

- Each survey corresponded to city map
  - **Green:** White / Wealthy = Best
  - **Blue:** White / Working = Still Desirable
  - **Yellow:** Foreign / Increase in PoC = Declining
  - **Red:** Black and Hispanic = Hazardous

## Collection Statistics

- 150 Boxes
- Over 6,000 surveys alone
- 250 cities

1910

1. NAME OF CITY Chicago, Illinois CITY STATE TERRITORY AREA OF 2.7

2. DESCRIPTION OF TOWN, VILLAGE, SUBURBAN, OR RURAL. Indicate in this case any known or suspected fire, pest, or other hazard.

3. POPULATION: a. Total 1,750,000 b. Male 800,000 c. Female 950,000 d. White 1,200,000 e. Colored 550,000 f. Foreign born 250,000 g. Increase or decrease since last year 100,000

11. PESTS: a. Total 1,750,000 b. Male 800,000 c. Female 950,000 d. White 1,200,000 e. Colored 550,000 f. Foreign born 250,000 g. Increase or decrease since last year 100,000

12. INFORMATION OF THE YEAR WAS OBTAINED FROM: Mr. W. Smith, of the Land Survey Company, 1234 N. State St., Chicago, Ill. DATE: 1910.2.15

## AREA DESCRIPTION

Security Map of LOS ANGELES COUNTY

1. POPULATION: a. Increasing Slowly Decreasing Static
- b. Class and Occupation Jewish professional & business men, Mexican laborers, WPA workers, etc. Income \$700 to \$2000 and up
- c. Foreign Families 50 % Nationalities Russian, Polish & Armenian Jews, d. Negro 1 %  
Slavs, Greeks, American Mexicans, Japanese and Italians
- e. Shifting or Infiltration Subversive racial elements increasing.

### 8. DESCRIPTION AND CHARACTERISTICS OF AREA:

Terrain: Level to hillside with generally favorable grades and comparatively few construction hazards. Land improved 90%. This is a "melting pot" area and is literally honeycombed with diverse and subversive racial elements. It is seriously doubted whether there is a single block in the area which does not contain detrimental racial elements, and there are very few districts which are not hopelessly heterogeneous in type of improvement and quality of maintenance. Schools, churches, trading centers, recreational areas and transportation are all conveniently available. Many of the thoroughfares are arterial in character and constitute traffic hazards. This area is wholly in the City of Los Angeles. It is hazardous residential territory and is accorded a general medial red grade, although in many parts slum conditions prevail. The Federal Government, in conjunction with the city government are undertaking a slum clearance project covering 41 areas in the extreme northeast part of the area.

5. SALE OF HOME PROPERTIES (1 yr.): a. HOLC: **33** b. Institutions: **Few**

6. MORTGAGE FUNDS: **Limited** 7. TOTAL TAX RATE PER \$1000: **191.3** **192.80**

8. DESCRIPTION AND CHARACTERISTICS OF AREA: Present level of ethnic mix generally ethnically groups and comparatively in construction is good. Land improved 95%. This is a "booming job" area and is literally homogeneous with diverse and subversive racial elements. It is seriously doubted whether there is a single block in the area which does not contain detrimental racial elements, and there are very few districts which are not hopelessly heterogeneous in type of improvement and quality of maintenance. Schools, churches, trading centers, recreational areas and transportation are all conveniently available. Many of the thoroughfares are arterial in character and constitute traffic boulevards. This area is wholly in the City of Los Angeles. It is hazardous residential territory and is accorded a general medical red grade, although in many parts also conditions prevail. The Federal Government, in conjunction with the city government are undertaking a slum clearance project covering 41 acres in the extreme northeast part of the area.

9. LOCATION: **Boyle Heights** SECURITY GRADE: **4th** AREA NO: **2-19** DATE: **-19-39**

CAUTION: This area is currently affected in whole or in part by an Act of violence. The District, Individual proprietor should be checked for this hazard.

## AREA DESCRIPTION

1. NAME OF CITY Altoona, Pa. SECURITY GRADE A AREA NO. 1

2. DESCRIPTION OF TERRAIN: Level

Enter the name of the city

e.g. "Altoona, Pa."

Bad mark

Illegible?

Next Entry

3. FAVORABLE INFLUENCES: Location of Altoona in point of location, class of people, freedom from objectionable influences.

4. DETRIMENTAL INFLUENCES: Traffic on Union Ave.

5. INHABITANTS:  
a. Type Executives & Professional ; b. Estimated annual family income \$ 4500 & up

# SCRIBE: Crowdsourcing Platform

Originally Developed by **NYPL**  
(<https://github.com/zooniverse/scribeAPI>)

Open Source Software written in **Ruby on Rails**

Collaborative Transcription and Verification of Texts that cannot be read automatically: **CrowdSourcing**

**Automatic Generation** of Marking Boxes

8-25-37

1. NAME OF CITY STAMFORD, CONN. SECURITY GRADE SECOND AREA NO B-3

2. DESCRIPTION OF TERRAIN. Land rises sharply to the north and west.

3. FAVORABLE INFLUENCES. Desirability and convenience of location.

4. UNFAVORABLE INFLUENCES. Possible spread of undesirable element from the east and south.

5. INHABITANTS: Minor executives and white collar

a. Type \_\_\_\_\_ ; b. Estimated annual family income \$ 2,500

c. Foreign-born None 0 % ; d. Negro None 0 % ;  
(Nationality) (Sex or so)

e. Infiltration of None ; f. Relief families None ;

g. Population is increasing ; decreasing ; static.

6. BUILDINGS:

a. Type or types Singles ; b. Type of construction Frame & brick

c. Average age 10 years ; d. Repair Good

7. HISTORY:

YEAR	SALE VALUES			RENTAL VALUES		
	RANGE	PREDOM- INATING	%	RANGE	PREDOM- INATING	%
1929 level	<u>\$10-\$17,500</u>	<u>\$15,000</u>	<u>100%</u>	<u>\$70-\$40</u>	<u>\$12</u>	<u>100%</u>
<u>1929</u> low	<u>6,5- 11,000</u>	<u>10,000</u>	<u>65%</u>	<u>50- 90</u>	<u>85</u>	<u>100</u>
<u>1937</u> current	<u>7,5- 12,500</u>	<u>11,000</u>	<u>75%</u>	<u>60- 110</u>	<u>100</u>	<u>100</u>

Peak sale values occurred in 1929 and were 100% of the 1929 level.

Peak rental values occurred in 1929 and were 100% of the 1929 level.

8. OCCUPANCY: a. Land 80 % ; b. Dwelling units 98 % ; c. Home owners 90 %

9. SALES DEMAND: a. Poor ; b. \$gls \$9-\$12,000 ; c. Activity is Poor

10. RENTAL DEMAND: a. Good ; b. \$gls \$75-\$100 ; c. Activity is Good

11. NEW CONSTRUCTION: a. Types \_\_\_\_\_ ; b. Amount last year None

12. AVAILABILITY OF MORTGAGE FUNDS: a. Home purchase Ample ; b. Home building Ample

13. TREND OF DESIRABILITY NEXT 10-15 YEARS Stable

14. CLARIFYING REMARKS:

A somewhat newer development containing houses of modest size and of varied but pleasing architecture. Plots are small but well cared for. There is no topographical or other barrier between this and the far less desirable area to the east, save a hill.

# 3. St. Louis Voyage

[Refugee Narratives]

— Curatelab —

## UMD Student Team:

Mary Kendig  
Myuresh Amdekar  
Brian Refford  
Sohan Shah  
Pal Doshi  
Yuting Liao  
Ruchira Kapoor  
Sohan Shah

# 3. St. Louis Voyage

## [Refugee Narratives]

- May 13, 1939 German ship **SS St. Louis** sailed 937 Jewish refugees from Third Reich to Havana, Cuba
- Despite arriving, SS St. Louis turned away
- Captain sailed to US
- State Department and White House denied entry

# St. Louis Voyage

- United States Holocaust Memorial Museum determined fate of all 937 passengers
- Developed spreadsheets containing passenger data, events, and countries
- Continuously collecting photographs, stories, and documents

# St. Louis Voyage: Building Archival Databases

- Students working directly with **USHMM staff** to conduct requirements gathering
- Using **SQL** programming and **MySQL Workbench**
- Building application for users to interact with data and collections

# St. Louis Voyage: Data Analytics

- Using **R Programming** to conduct data analytics
- Working with visualization software **Tableau, NodeXL, Gephi**
- Attributing coordinates to camps and cities to visualize movement of families

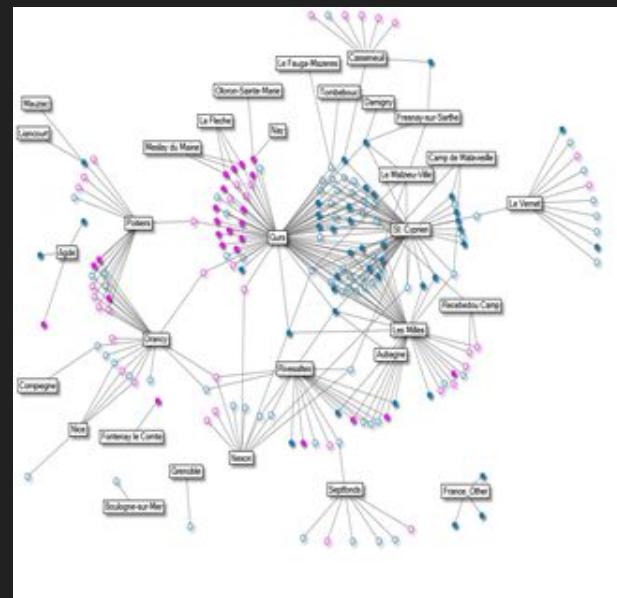

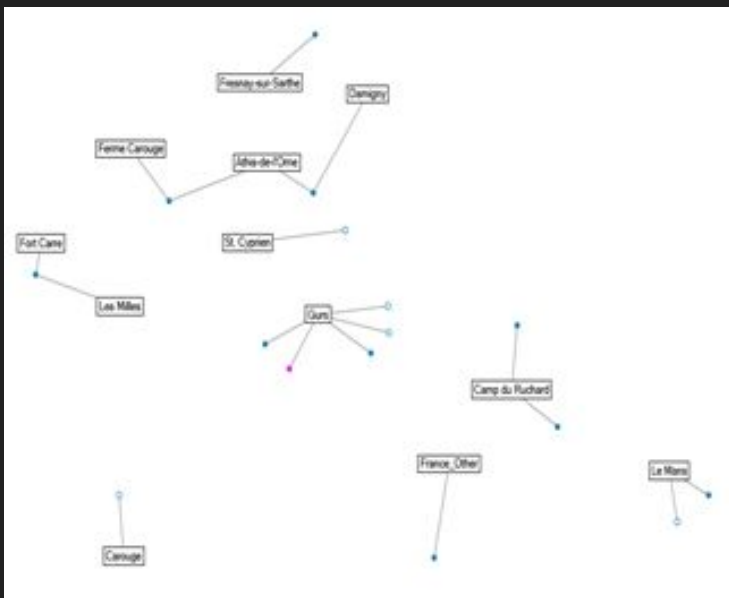

# Network of People in Internment

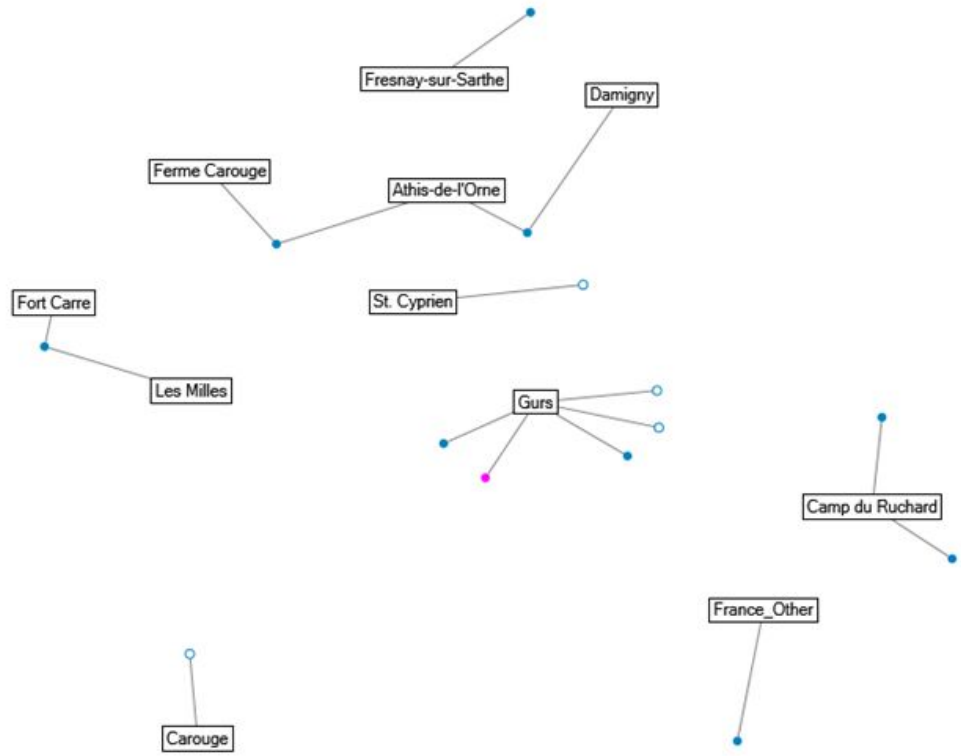

*Event Type: Internment Country: France*

*By Yuting Lao*

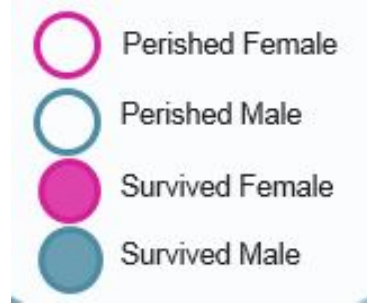

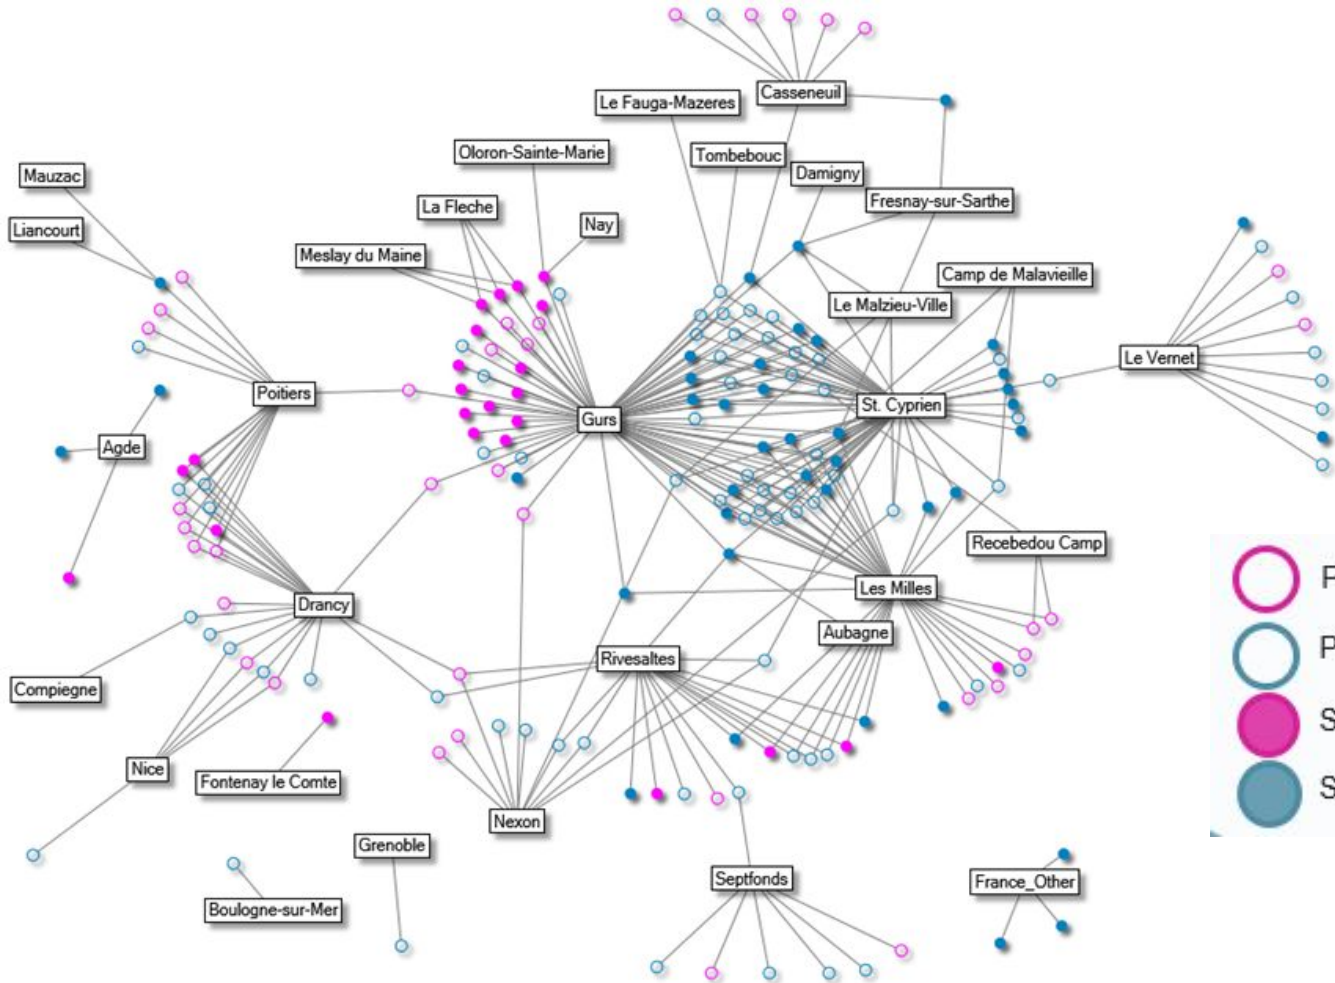

*• 1939–40 (before Nazi invasion)*

*1940-46 (after Nazi invasion)*

-  Perished Female
-  Perished Male
-  Survived Female
-  Survived Male

# 4. WWII Japanese-American Camps

## [Citizen Internment]

### UMD Student Team:

Jiahui Wu  
Kelsey Diemand  
Meaghan Wilson  
Vinita Atre  
Diane Travis

### UMD Faculty:

Richard Marciano  
Bill Underwood

# 4. WWII Japanese-American Camps

## [Citizen Internment]

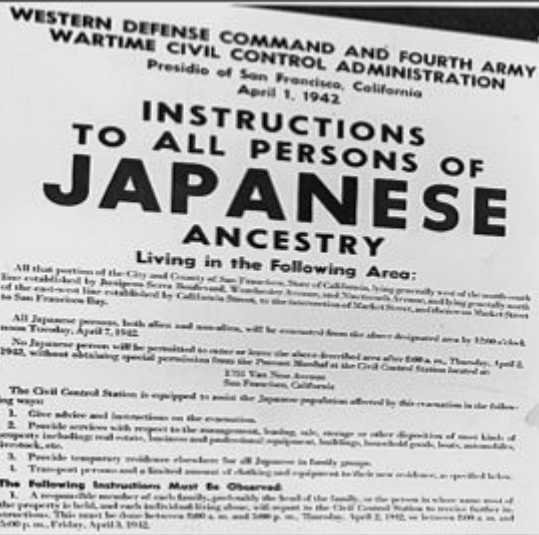

### AETN's "In Their Words" project re: the Rohwer Internment Camp:

- Four-year old **George Takei** and his family were moved from CA to the Rohwer, AK, Relocation Center in 1942. The family members lived in Arkansas about eight months. **Following the refusal of Takei's parents to swear loyalty to the United States, the family was moved to the maximum-security camp at Tule Lake, CA, where they stayed until 1946.**

### NPR / On the Media:

- <http://www.onthemediamedia.org/story/conversation-george-takei/>
- Talks with great clarity about the FDR executive order and the loyalty oath...

# Assembly Centers, Relocation Centers, Justice Department Internment Camps, & Citizen Isolation Camps

# Background: Tule Lake Segregation Center

# Background: Tule Lake Unit, National Monument

## Welcome to the Tule Lake Unit of WWII Valor in the Pacific National Monument

The Tule Lake Unit, WWII Valor in the Pacific National Monument includes both the the Tule Lake Segregation Center, the largest and most controversial of the sites where Japanese Americans were incarcerated during World War II, and Camp Tulelake, which was first a Civilian Conservation Corps camp, then a prisoner of war camp, and finally an additional facility to detain Japanese Americans.

**Tule Lake Segregation Center** ›

**Camp Tulelake** ›

# Incident Cards

# Digital Curation Workflow for Incident Cards by NARA

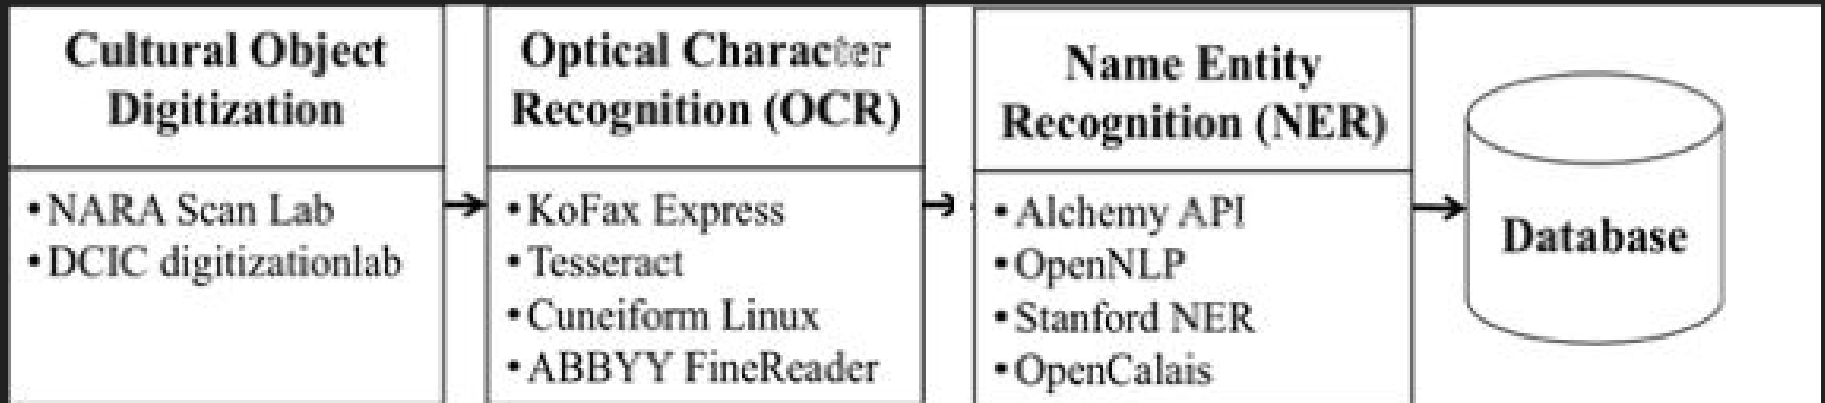

- **Scan and OCR** the "incident cards".
- **Extract the names** from the OCR text and capture in a database.
- **Check the names** against the full database of internees (also part of RG210), which includes birthdates.
- **Identify names** as being those of juveniles (under 18) and redact them from the database of names and from the scanned card images before their delivery to the iSchool DCIC Center.

## Acknowledging the 2015 support of NARA's:

- **Office of Innovation:**
- **Legislative Archives & Museum Services / Exhibits Dept.:**
- **Federal Records Center, St. Louis:**
- **Research Services:**

Pam Wright, Markus Most, John Martinez, Denise Henderson  
Michelle Farnsworth  
Richard Morgan, Bob Marsh  
Chris Naylor & Martha Murphy *[FOIA b(6) review]*

# Digital Curation Processing Workflow

# Phase II

- **Developing tools for optimized scalable input and processing** for this and other NARA collections
- **Automatic content extraction** (recognition of named entities, case ids and events) -- using GATE software
- **Structuring information** from notecards (XML Note Card document type)
- **Integration of records through analytics and visualization**

# 2016 IEEE International Conference on Big Data (IEEE Big Data 2016)

[http://dcicblog.umd.edu/cas/ieee\\_big\\_data\\_2016\\_cas-workshop/](http://dcicblog.umd.edu/cas/ieee_big_data_2016_cas-workshop/)

**Workshop Title:** Computational Archival Science: digital records in the age of big data

**Venue:** Thursday, Dec. 8, 2016 @ Hyatt Regency Washington on Capital Hill

- **Analytics in support of archival processing**, including appraisal, arrangement and description.
- **Scalable services for archives**, including identification, preservation, metadata generation, integrity checking, normalization, reconciliation, linked data, entity extraction, anonymization and reduction.
- **New forms of archives**, including Web, social media, audiovisual archives, and blockchain.
- **Cyber-infrastructures for archive-based research** and for development and hosting of collections
- **Big data and: archival theory and practice / construction of memory / provenance**
- **Crowdsourcing** and archives
- **Specific big data technologies** (e.g. NoSQL databases) and their applications
- **Corpora and reference collections** of big archival data
- **Linked data** and archives

# The DCIC is Pursuing a CAS Training / Teaching Agenda

There is a need to :

- **create innovative classes** that emphasize new modes of collaboration, and interdisciplinary work.
- **blend** elements of **archival thinking** and **computational thinking**:
  - problem solving that uses modeling, decomposition, pattern recognition, abstraction, algorithm design, and scale.
- **develop inter-disciplinary iSchools** with faculty from Computer Science, Archival Science, and Data Science.
- **develop** extensive hands-on experience working with **cyberinfrastructure** to carry out archival functions.

**WE WELCOME PARTNERSHIPS -- CONTACT US!**

NEW

# DRAS-TIC

Digital Repository At Scale - That Invites Computation  
[ To Improve Collections ]

**GOAL:** Build out the open source DRAS-TIC platform into a horizontally scalable archives framework **servicing the national library, archives, and scientific data management communities**

- **Product** of a 2-year startup by partners, Archival Analytics Solutions Ltd.
- **Scaling** to billions of files and beyond
- **Interfaces:**
  - Web client
  - Command-line client
  - REST storage API (CDMI) industry standard
- **Key-value** metadata
- **Listener** mechanism
- **Python** source on GitHub (Open AGPL license)
- **Apache Cassandra** database (CERN, eBay, GitHub, Hulu, Instagram, Netflix, Twitter...)

**WE WELCOME PARTNERSHIPS -- CONTACT US!**

# Practical Digital Curation Skills for Archivists in the 21st Century

Moving forward, build skills in the following areas:

- Digitization
  - Improving image quality
  - Transcription
- Basic Programming
  - Python / Javascript
- Data and Document Management
  - Building collections
  - Digital Storytelling
- Project Management
