Dear Friends:

On behalf of the people of the State of New Jersey, let me welcome you to the 1984 National Women's Studies Association Convention.

It is most appropriate that this sixth annual meeting of the NWSA is being held at Douglass College, the women's college of Rutgers, the State University. The largest college for women in the country, Douglass is the home base for the University's Institute for Research on Women, the Center for the American Woman and Politics, and the New Brunswick-wide Women's Studies Program, with its large and distinguished faculty membership. In recognition of this excellence and of the need to support the new research on women, I was pleased to endorse the recommendation of a legislative commission for a State-endowed Chair in Women's Studies at Douglass College.

Your conference addresses the challenge of providing both education and opportunity for new generations of women. Efforts like yours are of vital importance to help to promote recognition of both the achievements of women and the goals which remain to be won.

My best wishes to you for a successful program.

Sincerely,

Thomas H. Kean
Governor
June 24, 1984

Dear NWSA Convention Participant:

On behalf of the entire Rutgers University community, it is my very great pleasure to welcome you to Rutgers, the State University, and to the Sixth Annual National Women's Studies Association convention, "Steering Our Course: Feminist Education in the 80s." I am pleased that your Association has chosen to meet this year in New Brunswick, New Jersey, for many new and exciting opportunities are now available, both at Rutgers University and in the city in which we are located. I hope that your schedule will permit you some time to explore and take advantage of them.

Rutgers University's program in women's studies is healthy and strong. The faculty and staff members associated with the program are top-flight women whose commitment to women's studies is unparalleled in American higher education. Our Institute for Research on Women is among the leading centers of its kind in the nation. Further, Rutgers' commitment to quality and equality in its outstanding academic programs, a university environment which embraces excellence and equal opportunity for all who are associated with it, and a first-rate faculty and staff make the eighth oldest institution of higher learning in America an excellent place at which to study and live.

It is a signal honor for Rutgers University to be your host. I wish you all the best for a successful and productive convention.

Sincerely,

Edward J. Bloustein

Dear NWSA Convention Participant,

It is a pleasure to welcome you to Douglass College of Rutgers University for the Sixth Annual National Women's Studies Association convention. We at Douglass are proud that the NWSA chose to meet this year on our campus. Your theme, "Steering Our Course: Feminist Education in the Eighties," presents us all with a challenging agenda.

Douglass College, the largest college for women in the country, is the center for Women's Studies at Rutgers - New Brunswick. It is the home base for undergraduate Women's Studies as well as for the Institute for Research on Women, which offers forums and sponsors grant-funded research on women's lives. The Center for the American Woman and Politics, also located on campus, is a unique research, education and public service unit which links with the College in a variety of academic and extra-curricular programs. The Douglass Advisory Services for Women reaches out into the community and offers counseling, referral services, legal clinics and conferences. Student organizations supporting the goals of Women's Studies include the Douglass Feminist Collective, the Douglass Black Student Congress, the Chinese Students Society, the Douglass Puerto Rican Students Association, and the Women's Crisis Center.

Two examples of recent initiatives in Women's Studies are the "Junior Year at Douglass" and the state-endowed Chair in Women's Studies at Douglass. The Junior Year program will invite students from other four-year institutions to spend their junior year here participating in our women-oriented programs. The new Chair will feature public presentations and an annual theme-oriented interdisciplinary seminar inviting contributions from scholars and activists inside and outside the University.

Again, we are honored to have you with us. The National Women's Studies Association is taking the lead in setting the agenda for feminist education in the eighties. Please accept our best wishes for a productive and exciting conference.

Sincerely,

Mary S. Hartman
Dean of Douglass College
With genuine pleasure, I welcome you to the Sixth Annual National Women's Studies Association Conference, "Steering Our Course: Feminist Education in the Eighties." This conference promises to be the best yet, due to the creative energy and dedication of Carol Virginia Pohli, Kathy Kleeman, the conference staff, and many volunteers. For all of us, I thank all of them.

I am happy to report again this year that NWSA is larger and stronger than ever. Our membership continues to grow and we have increased NWSA activities and extended services.

This conference itself presents several unique features that reflect the Association's continuing attempts to reach and serve untapped constituencies. The Conference Scholarship Program, aimed at increasing the ability of low-income women to participate, has been expanded. The Autonomous Institute, which will be featured on Tuesday, represents NWSA's effort to encourage feminist education in the community and to address more directly the concerns of multiply oppressed women. Special programming scheduled for Wednesday is intended to serve the needs of PreK-12 educators.

The forward-looking theme of this conference appropriately affirms the purposefulness of NWSA and women's studies. We assemble here to share scholarship and pedagogy, to experience feminist entertainment and artistry, to meet old friends and make new ones, but most important, to determine the best routes to a tomorrow that is free of patriarchal distortion and the artificial barriers of all types of prejudice.

Such a mission challenges us; however, working together makes it pleasurable as well as productive and empowering. Thank you for being part of it and of NWSA.

In sisterhood,

Virginia Cyrus

National Coordinator
From the NWSA '84 Conference Staff

Dear NWSA '84 Conference Participant,

Welcome to the Sixth Annual NWSA Conference, "Steering Our Course: Feminist Education in the '80s." Putting this event together has been a monumental task and an extraordinary experience for us, and we hope that you will share our excitement and pride in what NWSA and Douglass College have to offer for these five days.

The strength and scope of this year's program are testimony to the growth of NWSA. Over the years since the first NWSA conference in Lawrence, Kansas, the association has gained a national reputation as the voice of feminist education at all levels and in every setting. Each year, more and more people—scholars, students, community activists, entertainers, artists, publishers—take part in NWSA's conference because they recognize it as a forum for what is new and important in the growing field of women's studies.

For Douglass College and Rutgers, The State University of New Jersey, this conference is symbolic of the increasing importance of women's studies in our own institution and state. In planning the conference, we have been reminded repeatedly of the superb resources available here—especially the many faculty, administrators, students, and staff whose commitment to feminism and to scholarship about women has provided us with inspiration and personal support so many times this year.

There are, of course, many people in the university, in NWSA, and in this community to whom we owe much gratitude. Several of these volunteers and friends are listed here or elsewhere in this book, but it would be impossible to identify everyone who has helped or to thank adequately all the people who provided guidance, assistance, or encouragement. We hope that all of you know who you are and how much your contributions have meant to us.

Dean Mary Hartman was the person most responsible for bringing the conference to Douglass College, and she has been a tireless supporter of our efforts from the beginning. We admire and appreciate her leadership in making Douglass a nationally respected center of feminist education, and we thank her for all she has done to make this conference a source of pride for the college and for NWSA.

Virginia Cyrus has given so much to this conference, and to all of us, that no expression of mere thanks is adequate. Suffice it to say that she exemplifies feminism in action for us, and that NWSA '84 simply could not have happened without her invaluable contributions to almost every area of conference planning. We have also drawn on the good will and expertise of John Cyrus, who has not only tolerated our extraordinary demands on Virginia's time but has also bailed us out of computer crises on numerous occasions.

Our committee chairs, whose names are listed elsewhere in this book, have worked long and hard to make the conference happen, each one taking a share of the burden from us, thus lightening the load considerably. We have learned much from them, and we know that you will appreciate the marvelous results of their efforts throughout the conference. They, in turn, would no doubt insist that much of the credit goes to the many loyal and dedicated members of their respective committees, all of whom deserve our thanks and yours.
Dee Garrison took on tremendous responsibility as program committee chair, overseeing the process of assembling a full schedule of conference panels, workshops, and plenaries. She brought to the task great wisdom, scholarly sensibilities, and unfailing kindness. Despite her many other commitments, she was most generous with her time and attention to this essential task.

Two university offices in particular deserve special mention for their roles in planning the conference. The University Conference Center staff, and especially Charlotte Wright, have given us essential guidance and aid; they remain calm even when others might panic. The Office of University Publications has worked with us from the start creatively and helpfully; the quality of their work on our call for proposals, registration materials, and program book (as well as on all sorts of smaller projects) has been superb. To Peggy Christ and members of her staff, our heartfelt thanks.

NWSA Coordinating Council and Steering Committee members have also given unstintingly of their time and energy to make our job easier. Each person to whom we have turned has responded with openness, sensitivity, and concern for the best interests of the Association and its programs, and that has been most helpful to us. Carol Combs in the National Office has been a cheerful and resourceful problem solver and friend for us whenever we have called upon her, going out of her way to answer our questions and respond to our needs.

Marlene Longenecker and Suzanne Hyers could easily have retired from their roles as conference planners after their spectacular success in 1983 at Ohio State University. Instead, they became our chief consultants, always available and always encouraging. They saved us from many potentially serious mistakes and served as living proof that conference planners survive. We hope to carry on this NWSA tradition by playing a similar role for our counterparts at the University of Washington.

Mirtha Quintanales and Juanita Ramos joined the planning process in the fall of 1983 faced with the challenge of coordinating the Autonomous Institute, working with their ad hoc advisory committee and with us to ensure the success of this new and important program. As we have worked together, our consciousnesses have been raised by our Institute colleagues, and we admire their dedication to aspects of feminist education that make a real difference in the lives of all women.

Carol Virginia Pohli deserves special thanks for her essential contributions as conference coordinator. Though she was unable to continue in that role, she left us in April with a strong foundation on which to complete the project to which she devoted her considerable energies and talents. We know that she cares immensely about NWSA and the conference, and we hope that she is pleased with the results of her work.
Finally, however, we would like to make a public declaration of hugs and gratitude to one another. In somewhat less than a year and under circumstances often less than ideal, we have learned much about ourselves, collectively and individually—as friends and feminists, colleagues and comrades, sorters of bulk mail, “generators” of memos, and passionate if occasionally conflicting believers in the causes and the visions upheld by this association. With love, wit, and sheer endurance, we have each endeavored in our various ways to “steer the course” of NWSA ’84 toward a faithful and exciting embodiment of these visions. We thank one another, and we invite each of you to share in and to appreciate the fruits of this collective voyage.

The coordinators of the Autonomous Institute of the 1984 NWSA Conference would like to welcome all of you to the Sixth Annual NWSA Conference. We do so in the spirit of the NWSA Founding Convention, which in 1977 addressed the need for a radical change in the existing power structures in this country in order to achieve a society free from all forms of oppression. The preamble to the NWSA constitution reads: "Women's studies owes its existence to the movement for the liberation of all women; the women's liberation movement exists because women are oppressed. Women's studies, diverse as its components are, has at its best shared a vision for a world free not only from sexism but also from racism, class bias, ageism, heterosexual bias—from all ideologies and institutions that have consciously or unconsciously oppressed and exploited some for the advantage of others."*

The creation of the Autonomous Institute is a cause for both celebration as well as critical reevaluation of the way that NWSA is fulfilling its principal goals. The institute is cause for celebration, because it demonstrates that as an organization the NWSA is flexible enough to consider and effect changes in its structure and programming in an attempt to meet the needs of women who feel they are not being fully represented. The creation of the Autonomous Institute is cause for critical reevaluation, because seven years after the NWSA was founded, a considerable portion of its actual and potential membership, including third world women of color, Jewish women, lesbians, students, physically disabled women, and poor and working-class white women still feels that its perspectives and concerns have not been adequately taken into account despite the long and sustained efforts of the Lesbian, Women of Color, and Student Caucuses. The Autonomous Institute challenges all of us to search for new strategies that will transform the NWSA's initial commitment to radical transformation into an ongoing political reality.

We would like to thank the Autonomous Institute Ad Hoc Steering Committee, the Autonomous Institute Proposal Review Committee, the National Women's Studies Association Coordinating Council and Steering Committee, the 1984 National Women's Studies Association Conference Coordinators, and all the staff and volunteers at the NWSA Conference office, the New York State Women's Studies Association, the Joan Kelly Education Fund of the National Community Funds, the Rutgers Graduate Student Association, the Rutgers Graduate Women's Alliance, the Rutgers Lesbian and Gay Alliance, and all the women who have made the Autonomous Institute possible.

A Special Welcome to Teachers

NWSA’s PreK-12 Caucus and the 1984 PreK-12 Conference Advisory Committee are pleased to welcome those of you who teach in preK, primary, or secondary schools.

More than twenty sessions of special interest to you as a PreK-12 educator will be part of the ongoing conference program during all four days. These sessions will offer ideas and practical solutions to the need for equity education in the early childhood classroom, the primary- and middle-school grades, and high school courses. We also urge you to attend one or more sessions that focus on the need for reform in teacher education. Come and contribute to these important discussions.

Note that Wednesday, June 27 has been designated as a special emphasis day for PreK-12 teachers. Our theme for the sessions you will want to attend that day is equity in education: enhancing the preK-12 curriculum. People from all parts of the New York–New Jersey metropolitan area and from across the country will address themselves to such topics as math equity for girls, antiracism, feminist storytelling, giftedness, nonsexist childrearing, sexual harassment, women in American History, adolescent development, and more. We hope that the entire conference program offers you information and opportunities for dialogue that will result in new teaching methods and new professional goals.

Don’t forget that other events in the conference schedule hold special interest for teachers. Be sure to enjoy the play, Top Girls, the concerts, and other varied cultural events.

There are surely many others who could be mentioned, and their absence from this list should be considered a lapse of memory rather than a lack of gratitude. NWSA '84 Proposal Review and Evaluation Process

At its February 1982 meeting, the Coordinating Council of NWSA elected to institute a new process for reviewing and selecting proposals submitted for presentation at the annual conference. All proposals were submitted to a blind review by feminist educators representing the various disciplines, caucuses, and regions of NWSA, who were then asked by the conference's program committee to give a preliminary evaluation of the proposals with suggestions for acceptance, rejection, or combination with other proposals. These reviewers did a great deal of work in helping us put the program together, and the conference coordinators and program committee would especially like to extend our gratitude to them for their expert advice. The proposal reviewers for the 1984 program were as follows:

Nancy Ackerman, Rutgers University
Cathryn Adamsky, University of New Hampshire
Joyce Antler, Brandeis University

Caucus/Task Force
Session Sponsorship

This year, once again, the conference's coordinators asked representatives of NWSA caucuses and task forces to review proposals relevant to their special interests and select those most appropriate for official sponsorship by those groups. You will find their choices noted in the program. Our thanks to the following people for their assistance with this important task.

Annis Pratt, Ann Snitow, Task Force on Discrimination
Francoise Puniciello, Librarian's Task Force
Annmie Wagstaff, Student Caucus
Sandy Coyner, Program Administrators' Caucus
Sue Blanshan, Women's Centers and Services Caucus
Pat Gozemba, Lesbian Caucus
Wilma Beaman, Eleanor Smith, Sandi Gonzales, Women of Color Caucus
Nancy Osborne, Susan Davis, PreK-12 Caucus

Our PreK-12 Advisory Committee has worked with us and the PreK-12 Caucus to create "Equity in PreK-12 Education: Enhancing the Curriculum." This is a special, day-long feature of this year's conference that focuses on the relevance of women's studies to the teaching objectives of both primary and secondary school teachers. Our special thanks to Susan Barbier, Marylin Hulme, Sylvia Kramer, Becky Lubetkin, Eileen McSweeney, and Lucy Picco Simpson.
Guidelines for Presenters and Moderators

The following suggestions were sent to moderators and presenters for their use in planning panels and workshops. We hope that all conference participants will join in implementing these guidelines, so that all of us may learn as much as possible from one another.

- Feminist education is based on the recognition that we are all simultaneously both teachers and students. While the women's classroom is characterized by its use of dialogue and interactive participation, conference sessions, too, have often focused on presenters rather than audience.

- At the Sixth Annual Conference, NWSA will try to reverse this tendency. Moderators and presenters are urged to pace themselves in order to guarantee a significant amount of time for audience involvement and sharing. We hope that you and the other members of your panel or workshop will together explore ways of presenting your material other than formal paper reading.

- It is our hope that at NWSA '84 every registrant will be a participant in the construction of knowledge about women's issues and achievements.

About the National Women's Studies Association

The Preamble to the revised Constitution of the National Women's Studies Association (NWSA) reads as follows:

The National Women's Studies Association was formed to further the social, political, and professional development of women's studies throughout the country and the world, at every educational level, and in every educational setting. To this end, this organization is committed to being a forum conducive to dialogue and collective action among women dedicated to feminist education and change.

Women's Studies owes its existence to the movement for the liberation of women; the feminist movement exists because women are oppressed. Women's Studies, diverse as its components are, has at best shared a vision of a world free from sexism and racism. Freedom from sexism by necessity must include a commitment to freedom from national chauvinism, class and ethnic bias, anti-Semitism, as directed against both Arabs and Jews, ageism, and heterosexual bias—from all the ideologies and institutions that have consciously or unconsciously oppressed and exploited some for the advantage of others. The development of Women's Studies in the past decade, and the remarkable proliferation of programs that necessitated this Association, is a history of creative struggle to evolve knowledge, theory, pedagogy, and organizational models appropriate to that vision.

Women's Studies is the educational strategy of a breakthrough in consciousness and knowledge. This uniqueness of Women's Studies has been and remains its refusal to accept sterile divisions between academy and community, between the growth of the mind and the health of the body, between intellect and passion, between the individual and society.

Women's Studies, then, is equipping women not only to enter society as whole and productive human beings, but to transform the world to one that will be free of all oppression. This constitution reaffirms that commitment.

NWSA, founded in 1977, is a grass-roots organization that draws its membership from all fifty states and associate members from abroad. Each U.S. member is also a member of one of the twelve regional associations, each represented on the National Coordinating Council. Members may choose to be affiliated with any of the seven recognized caucuses of the association: Program Administrators, Community College, PreK-12, Women's Centers/Services, Student, Lesbian, and Women of Color. These caucuses are represented on the Coordinating Council and meet during the annual conference to plan special projects for their members and the Association.

NWSA policy is set by the Delegate Assembly, which meets at the annual conference. Up to ten delegates are elected by the members of each region and caucus to represent them at the Assembly. Policies set by the Delegate Assembly are implemented by the Coordinating Council and the staff of the National Office. The Coordinating Council elects a Steering Committee to serve in an administrative capacity between its twice yearly meetings. The National Coordinator, appointed by the Coordinating Council, is the year-round executive officer of the Association.

The NWSA National Office serves as an information and referral center for members and the general public to answer questions relating to women's studies activities, make feminist educational concerns visible, and further extend the association's networks. The office is located at the University of Maryland, College Park, Maryland 20742, telephone 301/454-3757.
NWSA offers networking and support for teachers, administrators, and students in elementary and secondary schools and in the more than 400 women's studies programs in colleges and universities across the United States. The Association has identified qualified reviewers to serve as external evaluators for women's studies departments and programs under institutional review. In cooperation with the *Women's Studies Quarterly*, NWSA prepares an annual list of interdisciplinary women's studies programs in U.S. colleges and universities. Copies are available for $2.50 from the NWSA National Office.

The NWSA Librarians' Task Force exists to ensure access to information and resources for feminist students and scholars not only through well-recognized means of library service, but also through the development of innovative methods of information dissemination. The NWSA Task Force on Discrimination is charged with determining ways in which the association can most effectively aid academic women who are victims of sex discrimination in employment policies and practices. This task force is supported by contributions from members who earmark their gifts for this work.

The Second Annual Pergamon Press-NWSA Graduate Scholarship in Women's Studies will be presented during this conference to a student enrolled in a women's studies graduate program or doing research germane to the interdisciplinary field of women's studies in another graduate department.

The NWSA/FIPSE publication, *The Women's Studies Service Learning Handbook: From the Classroom to the Community*, provides resources for faculty, administrators, and students who teach, supervise, or work as interns in community projects and organizations. It is available for $6.50 from the NWSA national office.

This year, NWSA has cosponsored several conferences that focus on feminist education. The Second International Interdisciplinary Congress on Women, "Women's Worlds: Strategies for Empowerment," was held in April in the Netherlands. It provided a forum for researchers and practitioners from around the world to address issues that will lead to the advancement of women. Earlier this month, NWSA joined with the Women's Institute of American University for "The National Conference for Women Student Leaders." To prepare American women for the United Nations' Second International Decade of the World's Woman Conference that will be held in August 1985 in Nairobi, Kenya, NWSA is cosponsoring with the American Association of University Women "The International Women's Decade and Beyond" conference that will be held in New York on October 12 and 13.

NWSA Membership Information

NWSA membership is for the calendar year, January 1–December 31. Members receive a newsletter published quarterly, an opportunity to subscribe to various feminist journals and periodicals at up to a 50 percent discount, and a membership directory. Group members also receive the *Women's Studies Quarterly* and *Program Network News*. In addition, members receive reduced rates for registration at the annual conference.

Membership in NWSA includes membership in the regional associations and, if desired, in the caucuses, but some regions find it necessary to request nominal dues to defray the costs of newsletters and other activities.

Individual membership is available to students, researchers, teachers at every educational level, program staff and administrators, and those involved in feminist education and organization in the community.

Membership in NWSA represents a contribution to the work of the association: furthering the social, political, and professional development of women's studies in every educational setting. No person or group shall be excluded from membership because of inability to pay. Dues are set on a sliding scale, and participation is welcomed in whatever form and to whatever extent is possible.

During the Fifth Annual Convention of the National Women’s Studies Association held in Columbus, Ohio, June 1983, an ad hoc coalition of individuals representing women of color/third-world women, Jewish women, students, white poor and working-class women, lesbians, and women with disabilities was formed. Many of these individuals were members of the NWSA, had attended previous conferences, and formally participated in governing the association through its caucuses and/or the Coordinating Council; others were “newcomers” to the association and its yearly conferences.

This ad hoc coalition met a number of times during the conference and wrote and presented a resolution to the NWSA Delegate Assembly, proposing the creation of a special program, an “Autonomous Institute,” to be held during the June 1984 Conference at Rutgers University. This institute would consist of a block of sessions, organized by a woman of color/third-world woman chosen by the Steering Committee of the Ad Hoc Coalition, and would take place within the context of the general conference. The objectives of the institute were to: (1) highlight issues that had been inadequately represented in past conferences and reflect the concerns and perspectives of the Ad Hoc Coalition and its constituencies, and (2) attempt to increase the attendance and participation of such constituencies at the 1984 conference and future ones.

In very general terms, the program of the Autonomous Institute would aim to facilitate:

1. The serious discussion of the analyses, visions, struggles, failures, and successes of these groups as reflected in our writings, community-based projects, and other organizing efforts within and outside of academic circles in the United States and abroad
2. The critical evaluation of mainstream feminist ideologies and practices in the light of emerging national and international women’s and other movements that address the needs and concerns of female victims of multiple oppressions
3. The establishment of a dialogue among women that takes into account the reality of all women’s lives and the differences as well as commonalities among us
4. The development of ideologies and theories that reflect the heterogeneity and complexity of women’s identities, backgrounds, experiences, and lifestyles in the United States and throughout the world
5. The development of networks of information and support as well as strategies for organizing/building coalitions among women—nationally and internationally

The Delegate Assembly passed the resolution and the NWSA Coordinating Council and Steering Committee, in conjunction with the 1984 conference coordinators and the Steering Committee of the Ad Hoc Coalition, assumed responsibility for implementing this resolution by beginning to search for an institute coordinator and encouraging and supporting fund-raising efforts among the NWSA membership to (1) secure a salary for the institute coordinator, (2) increase the number of low-income scholarships, and (3) facilitate low-income women’s travel to and from the conference, etc.

After six months of sustained negotiations among these groups, the idea of the institute began to become a reality in early December 1983. Plans were made concrete when the two of us agreed to share the part-time position of institute coordinator and were officially hired as consultants by the Na-
tional Women's Studies Association. Our joint salary was to be $5,300, paid in equal amounts for approximately ten hours of work each per week. The National Women's Studies Association agreed to subsidize half of the salary, the other half would be obtained through the fund-raising efforts of the NWSA membership.

Work began immediately. We met with conference coordinators, drafted an institute-announcement/call-for-proposals statement, compiled numerous mailing lists, and between mid-December and mid-January mailed over 1,000 announcements. The call was sent primarily to individuals involved in grassroots organizing among constituencies represented by the Institute's Ad Hoc Committee as well as to a variety of academic and nonacademic institutions, community organizations, and groups nationwide. A number of individuals and groups were additionally contacted over the phone to ensure that the most often overlooked constituencies (e.g., Native American women and women with disabilities) were directly and personally encouraged to send in proposals and attend the conference.

We received about fifty-five proposals covering a wide range of topics from the history of women's movements in Latin America to strategies for surviving in the university as a feminist student. Proposed sessions included panels, workshops, single papers, slide shows, films, poetry readings, dramatic presentations, and other cultural events. On the basis of the proposals and the topics suggested by the institute's Ad Hoc Committee and other individuals and groups, we began to design the program. A proposal review committee was set up to make recommendations for the fifty-five proposals and the twenty-seven sessions that would constitute the program. We met with this committee a number of times. The review committee's members included women from almost all of the constituencies represented by the Ad Hoc Committee; no Native American women or women with disabilities were formally involved in the group. However, in connection with other community work that we both do in New York City, we have been in regular contact with Native and disabled women and made every effort to ensure that they and their concerns are included in the conference.

The Autonomous Institute program, to be held all day Tuesday, June 26, 1984, at the NWSA Conference at Rutgers University, has been organized as follows (please see other sections of the Program Book and the Autonomous Institute brochure for complete information):

9:30 A.M.–11:30 A.M. Panels and Workshops
11:30 A.M.–1:00 P.M. Lunch
1:00 P.M.–2:00 P.M. Networking Groups
2:00 P.M.–3:30 P.M. Panels and Workshops
4:00 P.M.–5:30 P.M. Panels and Workshops
5:00 P.M.–6:30 P.M. Dinner
6:00 P.M.–8:00 P.M. "Town Meeting"
8:00 P.M.–10:00 P.M. Cultural Event

The Autonomous Institute program falls short of what we would like it to be. As is often the case in most conferences, there are too many sessions to choose from during each time slot and too many sessions are in conflict with one another despite our efforts to track them. A possible solution to this problem would have been, of course, to limit the number of sessions. However, we felt that the one-day institute was already quite limited in scope, so that to exclude any session would have meant leaving out at least some critical areas of concern to the institute's constituencies.

Our choice to be representative and inclusive within the three time slots/nine sessions per time slot format presented further difficulties. The majority of the proposals we received were either for full panels and workshops or 1- and 1½-hour long presentations. Given our scheduling limitations, we had either to reject very acceptable proposals on the basis of scheduling problems only, or we had to break them up and recombine them whenever several dealt with related topics. We opted for the latter. The result was that in a number of cases, we had to create new session categories in order to combine proposals. Since individuals and groups were asked to limit their presentations to twenty minutes or so, this meant that in some instances, groups planning to give a presentation as a group were asked to limit their presenters to one or two.

Some proposals submitted involved single, short presentations in areas that we as coordinators and/or the Ad Hoc Steering Committee and the Proposal Review Committee deemed very important (e.g., women and aging, the problems of low-income women). In those cases, we found it necessary to do additional outreach and identify potential presenters who would be interested and willing to participate in the newly constituted panels and workshops.

The problem here was that we became considerably burdened by extra work, due not only to the many proposals that had been submitted for entire 1- and 1½-hour sessions. We were not entirely satisfied with our solutions, but the alternative would have been to organize an unbalanced program and/or keep vital information from being presented in some form at the conference.

We feel that the networking group's sessions during lunch time are too short and scheduled at an inappropriate time. However, we were unable to find an adequate time slot for them when there would be no conflict with either the institute's sessions or the NWSA Tuesday caucus meetings. The same is true for the institute's "Town Meeting." Given the nature of the latter gathering, whose purpose is to bring together the institute's participants, the Ad Hoc Coalition, and the institute's coordinators to share experiences, evaluate the institute, and develop strategies for better future programs, it seemed unreasonable to hold the "Town Meeting" earlier in the day before the program had taken place in its entirety or during the later evening hours when we expected women to relax and socialize. We hope that these gatherings will at least give the institute's participants an opportunity to plan to meet again during the four-day conference and afterward.

As coordinators of the Autonomous Institute, we have attempted to the best of our abilities, given tremendous time pressures and limited financial and other resources, to organize a program that reflects all of who we are, what we think, what we need, and what we want. We realize that we have made numerous mistakes, mistakes from which we have learned, from which hopefully, other women will learn. We wish to have on record that where we have erred, we have erred out of wanting to do too much, to give too much—conscious always that it could never be enough.

Name Tags
Each conference registrant will be issued her own name tag. As at past conferences, certain name tags are color-coded for your (and our) convenience in identifying NWSA or Douglass/Rutgers officials and one-day-only registrants. The name tag codes are as follows:
- Green dots: NWSA Steering Committee members

- Blue dots: press representatives

Some events at the conference are free and open to the public, while others are reserved for conference participants only. For this reason, and for reasons of security and identification, please wear your name tag at all times. If you lose your name tag, please go to the registration area for a replacement.

Housing and Meals
Conference registrants staying in dorms will be given room assignments and meal tickets at Nicholas Hall (Dudley Road, Cook campus).

Accommodations are also available at nearby hotels and motels: the Hyatt Regency, Nelson Street, New Brunswick; the New Brunswick Motor Lodge, Route 1 North, and Quality Motor Inn, Route 1 South, North Brunswick; Ramada Inn and Sheraton Inn, Route 18, East Brunswick; and the Travelodge, Easton Avenue, Somerset. (All of these accommodations are within ten miles of the conference site.) Limited free housing may be available in the community, primarily consisting of sleeping bag space. Anyone needing help with housing should check at the desk in Nicholas Hall or at the registration area in Lorree Gymnasium. (Housing is guaranteed only for those who registered by May 11.)

Those living in dorms should take special care not to lose their room keys, since there will be a fee for keys that are not returned.

Meal service for the conference begins with dinner on Sunday and ends with lunch on Thursday. Those not registered for the full conference plan who wish to purchase meal tickets may do so at the registration area. Vegetarian options will be available at all meals.

There are many fine restaurants in the New Brunswick area, although they are not within easy walking distance of the campus. A list of restaurants and directions will be available at the hospitality desk in the Douglass College Center. Lunches can also be purchased in the Cafe in the College Center.

Transportation
Returning to Newark International Airport
Conference participants who will be flying out of the Garden State should sign up as early in the conference as possible for the $3 shuttle service to the airport. Buses will depart from Nicholas Dormitory, Wednesday, according to need and Thursday by a regular schedule. Please sign up for this service at the transportation table at registration.

Campus Shuttles
The E bus of the university’s free shuttle service will provide participants with transportation to the downtown New Brunswick area daily between 7:20 A.M. and 6:00 P.M. This bus runs approximately every 20 minutes and stops in front of the Rutgers University bookstore, near the New Brunswick train station, then continues to the College Avenue campus (where the Zimmerli Museum is located, site of the Baroness Hyde de Neuville exhibit). Special note for participants being housed in the Methodist Church: The E bus also stops at the corner of George Street and Livingston Avenue, so it will provide you with transportation to the conference during the day. Inquire at the transportation desk or the conference office for details on nightly shuttle buses.

To the State Theater
Buses for the Holly Near and Ronnie Gilbert concert will leave from Nicholas Dormitory in two shifts, one at 7:30 P.M. and one at 8:00 P.M. Those who can possibly catch the early bus are urged to do so to help assure that the second shift will arrive in time for the concert. Buses will begin return trips to the dorm at approximately 11:15 P.M.

Parking
Anyone who wishes to park a car on campus must obtain a parking sticker at conference registration. Preregistered participants who will reside on campus will receive stickers in their registration packets; commuters may purchase stickers for $1. There are parking lots near all housing facilities and a large lot near Hickman Hall, where most sessions will be held, which is convenient for those who are coming to the conference just for a day. Because campus parking restrictions will be in force in most lots, participants are urged to park only in those areas designated by NWSA ‘84 signs. Rutgers police are assiduous ticketers—watch the signs, and save yourself the inconvenience and expense of a ticket. All conference parking lots have spaces designated for use by the disabled. No additional sticker will be needed for these spaces.
Services for Disabled Participants
There will be a staff member available at the information desk in the Douglass Student Center to assist anyone requiring special services. Special transportation, interpreters for hearing-impaired participants, and other services will be provided.

Child Care
The conference's child care center is located in the lower level of Davison Hall on the Douglass campus. Child care is free to all who preregister by June 1. Hours are as follows:

Press Policy and Facilities
Members of the press registering for the conference will be given a packet of special information and guidelines as well as an outline of services available to them. The NWSA welcomes members of the press to the conference and asks conference participants to be as cooperative as possible in assisting members of the press (identified by blue dots on their name tags) in covering conference events. Members of the press are welcome at all plenaries and cultural events as well as at most regularly scheduled sessions. Committee meetings, caucuses, and some sessions that involve sharing private personal information may be closed to the press if the presence of reporters would hamper the group work. The decision to close a session will rest with the convener or moderator of that session and with the national coordinator of NWSA. Reporters and photographers are asked to cooperate with this policy out of respect for the individuals involved and the goals of the association. For more information, check at the information desk in the Douglass College Center.

Caucus/Task Force Meeting Rooms
Each NWSA Caucus, proposed caucus, and task force has been assigned a “hospitality room” for the duration of the conference. Although there are officially scheduled caucus and task force meeting times (see the schedule), these groups may also wish to call meetings at any time during the conference or to meet informally. Please use the message board in the College Center to inform members of additional meetings. The following rooms are assigned for the use of caucuses and task forces:

Volleyball Tournament
For those who enjoy a good game with a spirit of competition, there will be an organized volleyball tournament running from Sunday through Wednesday evenings. Participants will be able to sign up at the physical culture table in the registration area.

Mini-Marathon
Of the many new physical culture events being introduced in NWSA '84, we are most excited about the fund-raiser mini-marathon, "Set Your Own Pace." Designed to raise monies for NWSA's Low-Income Scholarship Fund, the fun-run will take place on Wednesday from 11:00 A.M.-2:00 P.M. starting from the Loree Gym. Walkers, joggers and runners of all skill levels are urged to participate and enlist support from the folks back home as well as from colleagues at the conference. Any amount of contribution is welcome; we suggest $1-$5 per quarter mile. Sponsor sheets will be available at the physical culture table at registration.

Book Exhibit
The NWSA '84 Book Exhibit is located on the second floor (Nichol Avenue level) of the Douglass Student Center. The exhibit includes displays and sales of feminist books and materials, conference T-shirts, and two photography shows. In addition, displays of nonprint materials such as arts, crafts, and jewelry are located adjacent to the registration area in Loree Gym. Book exhibit hours are as follows:

Sunday: 2:00-8:00 P.M.
Monday: 9:00 A.M.-6:00 P.M.
Tuesday: 11:00 A.M.-8:00 P.M.
Wednesday: 11:00 A.M.-8:00 P.M.
Thursday: 9:00 A.M.-1:00 P.M.

Art Exhibits
Four special exhibits of women's art are being presented at Douglass and Rutgers' New Brunswick campus this summer for NWSA conference participants and others who may wish to view the work before or after the conference. Brief descriptions of these exhibits, their hours, and locations follow. Catalogs will be available at the exhibit sites.

Baroness Hyde de Neuville's Sketches of America, 1807-1822
June 10-August 19, 1984
Jane Voorhees Zimmerli Museum, (corner of George and Hamilton Streets) Rutgers' College Avenue Campus
Hours: Monday-Friday 10 A.M.-4:30 P.M. (closed Wednesday)
Saturday-Sunday 12 NOON-5 P.M.
Baroness Anne-Marguerite-Henriette Hyde de Neuville (ca. 1779-1849) and her husband, French exiles who came to America to escape Napoleon's regime, traveled throughout numerous Eastern states. They bought a farm in New Brunswick, where they experimented with raising Merino sheep. While in the United States, they founded a New York school for children of French refugees. The Hyde de Neuvelles returned to France in 1814, only to return to America in 1817 as the French Minister Plenipotentiary and his wife.

Facilities include a 25-yard pool, weight-training rooms, tennis courts, parcours, frisbee golf course, fitness center, dance studio, and platform tennis courts. Participants must provide their own equipment and towels. Bathing caps are required in the pool. At the conference registration site, you may pick up a one-page schedule for the following events:

Morning Runs
Morning Runs will be offered Monday through Thursday, beginning with a stretch session from 6:45-7 A.M. in the living room of Lippincott Dormitory; the run begins at 7:00 A.M. from the front of Lippincott.

Daily Activities
Daily, from 11:30 A.M.-1:30 P.M. and from 4:30 P.M.-6:30 P.M., a variety of physical culture activities are scheduled. These include participatory lectures on weight-training (instructed by a feminist power-lifter poet), relaxation and stress management, relaxation and performance, nutrition and premenstrual tension, yoga and aerobics, and fitness for the elderly.

In addition, physical culture organizers (PCO's) will be available at the fitness center in the Loree Gym to assist in pickup volleyball and softball games and in open use of the weight-training equipment.
Throughout all these travels, the baroness documented her impressions of what she saw with water color sketches. Far more than an appendage to her husband's career, she pursued her own interests and made her own unique contributions to the times, as both a woman and an artist of the American scene. Her sketches are an invaluable historical and cultural contribution to our understanding of the new American republic in the first decades of the nineteenth century. The campus shuttle bus F departs every 20 minutes from the Douglass campus for the College Avenue campus. Stops are clearly marked on both campuses.

Focused Fragments
June 5–29, 1984
Walters Hall Art Gallery, Douglass College Campus
12:00 NOON–4:00 P.M. Monday–Friday
The theme of this art exhibition by members of the Women's Caucus for Art/NJ is the fragmented lifestyle lived by many women today. The art reflects ways how the artists as creative women integrate various areas of their lives and use their experiences in the formation of their art. A diversity of styles and media are represented in this exhibit, which has been juried by Judith K. Brodsky, Gladys Grauer, and Maria Mijares.

Women Artists Series Group Show
June 1–30, 1984
Mabel Smith Douglass Library, Douglass College Campus
8 A.M.–5:00 P.M. Monday–Friday
In 1971, when women artists had few opportunities to exhibit their work, the alternative space in the Mabel Smith Douglass Library was made available. Over the years, more than one hundred artists have had the opportunity to participate in solo and group shows. The series has become a widely respected and prestigious showcase for women artists.

The current exhibit includes the work of thirty-one women artists who represent the 13-year-life of the series. The broad array of media being exhibited reflects the diversity of expression and style seen throughout the years.

The Photographic Work of Martha Tabor
June 24–September 15, 1984
Labor Education Center, Institute of Management and Labor Relations, Douglass/Cook campuses
8:30 A.M.–4:30 P.M. Tuesday–Friday (call 932-9502 for weekend hours)
Martha Tabor, a resident of Washington, D.C., has worked professionally for the last four years as a free-lance photographer and writer dealing primarily with labor-related issues. The exhibit is divided into three sections.

The first part of the exhibit is devoted to a large body of photographs depicting the work of midwives. These are images of women challenging the way obstetrical and gynecological health care is provided to women in the United States by offering alternative services. Tabor worked with midwives in Brownsville, Texas; Austin, Texas; Taos, New Mexico; suburban Washington, D.C.; and Philadelphia.

The second part of the exhibit is devoted to a multimedia show that combines poetry, photographs, silkscreens, and lithographs.

A third section features the artist's photographs of Women at Work, images that depict women in nontraditional occupations, with a focus on those women who helped build the Washington D.C. subway.

Photography Exhibits
The following photographs of women are on display in the Book Exhibit area.

Generations of Women
Created in 1980 by Doris Friedensohn and Barbara Rubin at Jersey City State College, this exhibit of family photographs was taken from the albums of women's studies students and staff. The total collection of more than 200 items includes narratives as well as photographs of women of all ages, ethnic and racial backgrounds. More than thirty countries of family origin are represented, and some photographs date to the 1860s. This exhibit has had seventy-five showings in the United States and abroad. We think you will enjoy the selected photographs contributed to the conference by Friedensohn and Rubin.

Black Women: Achievements against the Odds
This exhibit consists of a set of twenty posters produced by the Smithsonian Institution Traveling Exhibition Service. It is derived from the first serious museum study of the achievements of black women and offers a dramatic view of women who contributed to all aspects of American history, culture, and society. We are grateful to Viola Van Jones of Douglass College, who made our use of these photographs possible and worked with our photography chair, Larry Houston, in arranging the display.

Film Series
This year's film series showcases a broad selection of film and video works by women producers and directors. This program, which will run each day of the conference in the Art History Building, will feature both full-length and short films as well as art films, documentaries, and feature films, many of which address topics and issues raised elsewhere in the conference. Highlights include Lizzie Borden and her exciting and controversial Born in Flames and a special evening of films and discussion with director Claudia Weill.

Detailed information about each day's screenings can be found in the film and entertainment schedules that follow the daily general schedules for the conference and in the film brochure available at registration.
## Miscellaneous Notes

- There are two Nicholases on campus—Nicholas Dormitory and Nicholas Music Center. Please be alert to which one you're looking for, since they're not very close to one another and you'll have a bit of a walk if you find yourself at the wrong one.

- New Jersey is phasing in the new minimum drinking age. Only those born before January 1, 1964, may consume alcoholic beverages in the state. Please comply with this law and do not assist others in violating it.

- The Cook–Douglass Cooperative Bookstore is open between 9:00 A.M. and 4:30 P.M. on weekdays, and it can meet most of your needs for supplies, snack foods, and local souvenirs. You may cash traveler's checks in any amount and personal checks up to $30 over the amount of purchase at the bookstore with proper identification.

Browning's insight into female idolatry, male possessiveness, and oppression of women arose from his necrophilic tendencies. Beauvoir's ethics of ambiguity illuminate differences between the 18th-century novels.

Meet the Original

The World's First Woman University Graduate

After an heroic struggle, Elena Cornaro graduated from the University of Padua in 1678, receiving the degrees of Master and Doctor of Philosophy. Denied the right to sit for the examination in Theology, she eventually was permitted to be examined in Philosophy.

Within the crowded Cathedral of the Blessed Virgin, three Doctors of the Sacred College rigorously questioned Elena Cornaro in all the prescribed areas. She readily and calmly replied to each different question, answering in Latin, Greek and Aramaic. After each response the audience cheered and applauded, such was their enthusiasm and wonder.

The examiners were also impressed and within the official record of the University they voted that "all the Doctors of the College proclaim that so splendid an exposition of the thesis should be rewarded more conspicuously than by submission to a ballot." They proclaimed vocally and unanimously their decision. They conferred upon Elena Cornaro the degree of Magistra et Doctrix Philosophia and ceremoniously presented her with appropriate symbols—The Poet's Ring, Laurel Crown and Masters Ermine Cape.

Although Elena Cornaro was the first woman in the world to be a university graduate, over the years her singular accomplishment was forgotten as it was for many women who pioneered in their field. Not until the early 1970's and in preparation for the Tercentenary of her graduation to be held in Padua in 1978, did scholars at the University of Padua extensively research and document Elena Cornaro as the world's first woman university graduate. Now she has taken her rightful place among the great names in the history of education as the woman who laid the cornerstone for women's right to learning and knowledge.

As part of the worldwide Tercentenary celebration, a special book was published, Elena Lucrezia Cornaro Piscopia 1646-1684. Now, a limited edition, softbound cover of this book is available for $7.95 per copy (including postage). The book, illustrated with engravings and photographs, contains a profile of the Cornaro's life, documents concerning her doctoral examination and of the primacy research and an extensive bibliography. Elena Lucrezia Cornaro Piscopia will interest any person concerned with the history of great women, the baroque era, and the achievements of a truly remarkable and original woman.

The Proper Lady and the Woman Writer

Ideology as Style in the Works of Mary Wollstonecraft, Mary Shelley, and Jane Austen

Mary Poovey

Poovey examines the struggle of three prominent English writers to accommodate the genius of the artist to the ideal of the modest, self-effacing "proper lady" that dominated English middle-class culture by the late 18th century. Poovey's original interpretations of their work — including novels, letters, journals, and political tracts — in the context of cultural strictures offer important contributions to English social and literary history and to feminist theory. "A brilliant, original, and powerful book . . . This is the most skillful integration of feminism and Marxist literary criticism that I know of." — Stephen Greenblatt, University of California, Berkeley

Women, History, and Theory

The Essays of Joan Kelly

Edited by Catharine R. Stimpson

Joan Kelly was a leading member of the generation that founded women's studies and the new scholarship about women. This posthumous collection offers Kelly's influential ideas about women in history, the social relations of the sexes, the status of women in society, and the consequences of social change for family life. The result is a profound synthesis of feminist theory and a rigorous historical analysis that re-aligns our perspectives on women in Western society from the Middle Ages to the present.

Independent Women

Work and Community for Single Women, 1850-1920

Martha Vicinus

Independent Women looks at the ways in which middle-class, single women in Victorian England fashioned new professional and personal lives outside of the domestic sphere. Focusing on residential communities — including religious sisterhoods, hospital nursing, women's colleges at Oxford and Cambridge, and social work settlements — Vicinus traces the evolution of the Women's Suffrage movement, which grew directly out of the economic, social, emotional, and spiritual significance of these pioneering enterprises.

SELECTED AS AN OUTSTANDING ACADEMIC BOOK FOR 1983

THE INVISIBLE FARMERS
Women in Agricultural Production
CAROLYN E. SACHS, Pennsylvania State University

"U.S. agricultural policy has always emphasized the importance of the family farm," but research has focused on the male of that family, relegating the female to only minor roles — invisible, as the title suggests. Sachs' study fills this gap. It documents the extensive participation of rural women in U.S. agriculture as owners, workers, and household producers, paid and unpaid, farm and off-farm.... This book fills an important gap in the history of women." — Choice
1983 / 168 pp. / illus. / $23.95

WOMEN, SEX, AND THE LAW
ROSEMARIE TONG, Williams College

This volume represents a first — an attempt to understand and interpret the links among issues from pornography to rape and sexual harassment; an analysis of those perspectival problems that complicate not only gender relations, but race and class relations; and a probe into the nature and limits of the law as an instrument of reform concerning women and their sexuality.
New Feminist Perspectives Series
1984 / 224 pp. / ca $22.50 / ca $8.95 paper

SEX AND ADVANTAGE
A Comparative, Macro-Structural Theory of Sex Stratification
JANET SALTZMAN CHAFETZ, University of Houston

"I find it brilliant. It is one of those rare works in the Marxian tradition that is illuminating without being dogmatic." — Rose Coser, SUNY Stony Brook
Provides the first full and systematic treatment of the macro-social factors that determine in any given society just how pervasive discrimination against women will be. The author's synthesis of formal theory and comparative structural data offers a valuable supplement to the more common social psychological theories of discrimination.
1984 / 144 pp. / $23.50 / $11.95 paper

Q: What is the purpose of the AAUW Legal Advocacy Fund?
A: The purpose of the AAUW LAF is to provide financial assistance to women involved in sex discrimination suits in higher education.

Q: Why should I contribute to the AAUW LAF?
A: • Women are under-represented in tenured positions. In 1982, 70% of male faculty had tenure compared to 49.4% of female faculty.
• The percentage of faculty members who are women is lower today than forty years ago.
• Male faculty members' salaries are higher than female faculty members' at every rank, at every type of institution and in every discipline. In 1982, the average woman faculty member earned $5,000 less than the average male.
• Women are concentrated disproportionately in the lower ranks within the academic ladder. While women hold only 10.9% of the full-time faculty positions, they hold over half of the positions at the instructor rank.

Q: What cases have been adopted by the AAUW LAF?
A: Four cases have been adopted by the Fund: (1) Zaborik v. Cornell University, a suit brought by a group of Cornell University faculty women, known as the Cornell Eleven, alleging sex discrimination in tenure decisions and salary. (2) Penk v. Oregon State Board of Higher Education, a class action suit brought against the entire state system (eight campuses) charging sex discrimination in salary and other terms of employment. (3) Haffer v. Temple University (Philadelphia, PA), a case brought by female students alleging discrimination in the school's athletics program. (4) Webster v. Mohawk Valley Community College, a sex discrimination suit brought against a community college in New York.

Q: How does a grievant apply to the Fund for case support?
A: Write: Public Policy Department, AAUW, 2401 Virginia Avenue, N.W., Washington, DC 20037, or call 202/785-7713. Ask for a copy of the "Application to Receive LAF Case Support.”

Science and Gender

A Critique of Biology and Its Theories on Women by Ruth Bleier, University of Wisconsin

The experts agree—SCIENCE AND GENDER is a landmark book. "Not only does Ruth Bleier use her own discipline, neuroanatomy ... but she draws on anthropology, sociology, endocrinology, psychology, and ethology. She lays to rest the biosocial justifications for the sexual double standard ... and makes it clear that patriarchy not only shores up bad politics, but also bad science." —Pauline B. Bart, University of Illinois

This superbly written book probes the myths that act to "explain" gender differences—myths that have worked to perpetuate women's subordinate position in Western culture. From sex differences in the brain structure, to a fascinating analysis of human cultural evolution, Dr. Bleier takes an uncompromising look at the popular views of gender "superiority/inferiority," as well as their presumed biological origins.

Written from the perspective of a biological scientist and feminist, SCIENCE AND GENDER is a book that demands your attention!
