Make Learning Awesome with Kahoot!

Tips for engaging students in the classroom

Stephanie Ritchie, Nedelina Tchangalova, Kiri Houpt
GOALS

1. Gain familiarity with a new active learning technology
2. Use Kahoot! to build a simple classroom quiz
3. Know how to ask for help! 😊
WHY KAHOOT?

Kahoot! is a simple tool that can help instructors to seamlessly blend lecture, participatory activity and assessment in library instruction sessions.

- Pre- and post-session assessment data can be collected on the spot, during the session ensuring 100% response rate
- Student participation is visible - you can see how many students are playing and responding in real time
- Instructors can use the Kahoot to shape the discussion or lecture responsively, depending on where students struggle
- Students can honestly assess gaps in their own knowledge, and comparison to classmates can motivate them to close those gaps
- Fast pace and live results – it’s fun!
Let’s Play

On your laptop or phone, go to: Kahoot.it
ACTIVITY TYPE #1 - QUIZ

Multiple choice or T/F -- must set correct answer | Useful for assessment or reinforcing concepts
ACTIVITY TYPE #2 - DISCUSSION

Only one question -- four possible answers | Can be anonymous | Can be used to spark debate

Which UMD food service option is best?

- Dining Services Food Truck
- Adele's
- Chick Fil-A
- Maryland Food Co-op
