Vincent J. Novara
Curator, Special Collections in Performing Arts
August 2016
Mission

We acquire, preserve, and provide access to research materials that document performance, instruction, and scholarship, consistent with the university’s performing arts educational objectives.

Intended community: students, faculty, and external researchers pursuing:

(1) new original research, (2) programming any level of performance, and (3) resources for genealogical inquiry or individual memory.
Vision

• We will be a true performing arts special collections repository – striving for balance in dance, music, and theatre, with attention given to puppetry in the performing arts.

• Our collecting and services will anticipate trends in scholarship at UMD and our larger research community.

• We will always be a creative partner with the School of Music, the School of Theatre, Dance, and Performance Studies, The Clarice, and any other academic or arts entity, as well as the other special collections at UMD. Our international acclaim for collections and services will continue to rise.

• We will always serve as a laboratory environment for archivists in training, as well as for musicologists and ethnomusicologists who are seeking formal experience working hands-on with primary source materials.
Special Collections in Performing Arts
or “SCPA” [pronounced: skippah]
