Findings and Solutions

1. Findings from user research
2. Insights from our model
3. Design suggestions
Product Concepts

1. Exclusive deals to incentivize mobile app usage
2. Customized trip planner
3. Suggest most traveled tourist attractions, such as trail routes
4. Display reviews of places and restaurants
5. Conversational user experience - chatbot
6. Sharing and planning events together with friends/family
4 out of 10 people didn’t want to use up space in their phone on an app for one time use

- I don’t want to download the app
- He wouldn’t really download the app if he didn’t live in Harford County

Hook users with ‘App only’ deals to promote usage

Provide hybrid app, which doesn’t consume much space in the user’s phone
Not everyone is interested in everything. Provide them with interactive filters. Almost all users wanted better filters.

- I want to find information easily and quickly
- I want intuitive and interactive filters to get better results

Provide better filters to enable users to obtain results Provide an interactive chatbot that helps users find information easily
A chatbot is an easy “way in” to help users find what they want.
People google everything. Have Visit Harford County on top of the search results. 7 out of 10 users said they use Google for all their searches.

I depend on Google to look for information about places.

The webpage has to be Search Engine Optimized (SEO).

When people search popular County events, the ‘Visit Harford’ link should be displayed at the top.
Reviews make or break; so, no reviews is a deal breaker.

- I rely on recommendations while looking for accommodation
- I trust reviews of a place from a person I know
- I check both online and offline platforms for reviews

Show people what visitors feel about Harford county. Highlight reviews from friends and family. Include Yelp reviews while displaying restaurants.
Based on research, we found people rely on ratings and reviews. Including them under each restaurant helps users make informed decisions.
Show them what’s happening in the County. **Promoting events** is as important as organizing events.

I feel Harford County has good events, but they should be promoted well.

- Landing page can be better used for promotions
- Promote events using both online and offline platforms
Hi-fi screens

Use the landing page to promote the activities here.

Upcoming events will help users to plan their trips ahead of time.

Promote the County through blogs.
5 out of 10 people said they want to visit the **Breweries and Vineyards**

- I want to visit Harford County for specific places
- Vineyards and breweries interest me

*Promote local breweries and wineries on a large scale*
7 out of 10 users said they like hiking and indulging in water activities.

I like to engage in different activities on a vacation
I like to visit beaches
I like to visit places where I can hike
I am attracted toward events in the Bay area

Create and promote trekking events.
Make Harford County known for water-based activities and the Bay area.
Sorting trails by difficulty level on a mobile app will help users decide what trail they want to hike. The trail difficulty can be determined using user feedback.
5 out of 10 users said they like the 'Recommended trips' option.

I liked the recommended trips feature on the website.

Devise a ‘Trip Recommender’ feature based on user preferences.
Ask users to fill out a questionnaire on their interests to devise personalized trips.
To Summarize...

- Add a section for family-friendly trip ideas
- Have special offers for users who download the app
- Provide a customized trip recommender and the option to share it
- Partner with Expedia to promote places in Harford County
- Promote local traditions to engage with tourists
- Reorganize information to help users find it quickly and easily
- Enable sharing and planning events with friends and family
- Use a hybrid app instead a native app
Thank you
