

TECHNICAL RESEARCH REPORT

Sampling of Diffusion Processes for Real-time Estimation

by Maben Rabi, John S. Baras

TR 2004-15

ISR develops, applies and teaches advanced methodologies of design and analysis to solve complex, hierarchical, heterogeneous and dynamic problems of engineering technology and systems for industry and government.

ISR is a permanent institute of the University of Maryland, within the Glenn L. Martin Institute of Technology/A. James Clark School of Engineering. It is a National Science Foundation Engineering Research Center.
