Hello Lillian

I was part of the ENSP Capstone group that assessed stormwater structures managed by the Maryland National Capital Parks and Planning Commission. Specifically our group included the following students during the Spring 2020 semester: Zack Bishop, Candela Cerpa, Kimberly Edmonds, Emma Lipsky, Sara Ramotnik, Tara West, and Aniya Yarborough.

We give PALS permission to upload our deliverables that we developed during this project to DRUM.

Please let me know if you have any questions or need assistance accessing our deliverables.

Thanks,

Zack Bishop

Thank you, Zach. We'll get that posted as soon as we can, and I'll let you know if I need anything else. Hope your summer is off to a nice start!

Thanks,

**Lily Murnen**
