## Team Uniforms

The University of Maryland's Competition uniform shall consist of one t-shirt, in either red or yellow, as shown on the right. The colors will be evenly distributed across the team.

Each member at the competition will be provided a black collared softshell jacket, with the reACT logo embroidered on the left side. The jacket will have "TEAM MARYLAND" embroidered in red across the rear shoulder panel.

A pale gray baseball cap is available to team members, but is not required to be worn. The uniform will help team members to react to weather conditions on site!

All team members will wear dark wash jeans and dark-colored shoes.
