Exploration. From here on I haven't looked closely at the documents. Only a general sense of what the volumes contain. Specifically, I've tried to find more information on the 19th century.

Lloyd Family Papers

1796-1804

1801

Reel #7 Volume 16

Wye River Account Book

1799-1804

I believe the most fruitful Reels will be Reels #8-#16. Though some of the later Reels may contain document from after the period you wish to study. Additionally Reel #41, which contains the Miscellanea, may contain "lists of articles wanted for the garden, evergreen shrubs, flowers..." according to the information located at the front of each Reel.

Reels #8 & 9 look particularly promising for information from the first half of the 19th Century.
